

Veterinarian Formula Churu®

— THE —
purrrrfered
SOLUTION FOR A MORE
positive feline
experience

Churu Vet is an all-natural solution to increase positive feline experiences both inside and out of the clinic. From inappetence to dehydration, distraction to recovery and more, Churu Vet, with its high palatability and liquid-puree consistency, is the perfect companion to improving feline care for veterinarians and pet owners.

INAPPETENCE

Churu Vet's high palatability entices cats when they won't eat anything else, while delivering **12 kcals with every tube.**

DEHYDRATION

The **88% moisture content per tube** makes Churu Vet great to send home with patients for increased hydration.

DISTRACTION

Churu Vet's highly pungent **all-natural chicken and tuna flavors** immediately capture a cat's attention, reducing anxiety during exams.

RECOVERY

The **easy-to-eat puree** delivers calories and hydration needed during the surgery recovery process.

#HowDoYouChuru

We use only high-quality human grade ingredients including natural wild tuna and farm-raised chicken. Our products are low in calories, grain free and packed with the moisture that your cat needs to be healthy.

Churu Veterinarian Formula is produced in a GMP/HACCP- certified facility. Churu Vet is not complete and balanced and should not be used as a sole food source. Target less than 10% of total caloric intake.

Inaba Foods produced our first pet foods over 60 years ago. Since then, we have been producing high quality pet foods made with carefully selected human grade ingredients.
